How does AhaSlides work?

Capture your audience's full attention in 3 easy steps!

1

Ask a question

Create a presentation right on the web and write the questions you want to ask. You can also add regular slides with text and images in between the questions.

2

The audience respond

Your audience scan the QR code or follow the link to cast their votes. They can also send live reactions and submit questions. No installation or setup needed.

3

Results updated live on screen

As the audience submit their votes, the results are instantly displayed on your slides as beautiful charts, or in any other interactive format of your choice.

Preparing materials as a lecturer

- Prepare presentation in advance (ppt, pptx, pdf)
- Import it to AhaSlides web application
- Add slides with predefined content types:
 YouTube, heading, list, QR code, ...
or slides for interaction interactive slides:
 MCQ
 image select
 open ended
 word cloud

To join, go to: ahaslides.com/ZT640

How many days are there in a week?

Entries per participant input field with value 3

Other settings

- Allow audience to submit more than once
- Filter profanity
- Hide results [Show results on all slides](#)
- Stop submission
- Limit time to answer

Presentation mode

- Fullscreen interface or editing mode in the browser
- The current slide is always shown to participants via share link
- The audience
 - follows the presentation – slides are automatically updated
 - sees interactive slides and can interact with them
- The lecturer can choose to
 - show/hide results
 - add time limit, correct answers
 - do it all live in their web browser

Additional features

- Quizzes & mini competitions
 - Sequential questions with time limit, more points for faster answers
 - Control over submitted answers, automatically generated scoreboard
- Registered users/limit participants
 - N/A
- Data export only in the paid version
 - Free: Up to 7 live participants, unlimited questions, unlimited quiz, unlimited Q&A

Take-away

- Nice, bright interface, pleasant colors
- Many options on the interface (too many?)
- Good slide synchronization with clients – auto updated
- Limited number of participants in the free version
- No user list/control
- Cool *remove word from word cloud* feature

THANKS!
