## ACTIVE LEARNING THROUGH IMPROVED INTERACTIVITY

Date: 29.4.2021.

**Subject Title: Tasks**

### O1.A1.5: User Interface Verification Workshop

To prepare for the O1.A1.5 workshop, please:

1. **Prepare a 5-10” presentation** (one per partner) of your **experiences with using any ARS in your classroom**. You can report on your past experiences or gain an experience by using an ARS in the classroom before the workshop. In the short presentation, please describe the usage scenario and its key elements: which ARS, what class/topic/students’ age, what question types, how many, with what goal.
2. **Watch the recording of the AudIT main functions presentation** [HERE](#)
3. **Try the AudIT mockup version available** at <http://161.53.64.78/>  
It is a mockup version – the supported activities include submitting textual messages or votes by the audience and displaying them on the lecturer’s interface. Download/redirect/email/textual answer comparison/wordcloud functions are not yet implemented.  
Is it intuitive? Can you find specific functions? Can you submit votes/text as a student? Can you see them on the lecturer’s interface? Prepare to discuss.
